professional summary

Experienced Data Science Professional with over 6 years of expertise in delivering regulatory compliance and financial crime risk solutions in the banking industry. Adept in designing, developing, and deploying advanced analytics models using **AI/ML**, **NLP**, and **LLMs** to meet control framework, audit, and regulatory standards. Proficient in **model monitoring**, **risk identification**, and emerging tech integration. Proven ability to partner with IT, product, and compliance stakeholders to deliver scalable, audit-ready solutions that align with **governance** standards. Known for leading **GenAI** use cases in Question-Answering and document summarization, supporting global regulatory risk frameworks

skills

- Technical Knowledge : Applied Statistics, Machine Learning, NLP, Generative AI (LLMs)
- Project Management Tools : JIRA, Git, Confluence, Teams, Advanced Excel
- GenAI Capabilities : LLM Integration, GPT4, Retrieval Augmented Generation (RAG), Embedding, Chunking, Prompt Engineering
- Soft Skills : Matrixed Team Collaboration, Agile Delivery, Project Ownership , Stakeholder Engagement, Risk Communication, Presentation to Non-technical Teams
- Technical Tools : Python, R, SQL, Hadoop ecosystem (data processing), GCP, AWS, Azure (conceptual exposure), R Shiny, Qlik-Sense
- AI/ML Capabilities : Supervised & Unsupervised Learning, Deep Learning Basics
- Others: Regulatory Model Development, Model Governance , Model Monitoring , Stakeholder Reporting

experience

Dec 2023 - Present

MANAGER

HSBC, Kolkata

- *Delivered **GenAI**-driven initiatives to enhance internal compliance tool using LLMs for **Question&Answer(QnA)** assistance, **Document Summarization**.*
- *Designed and implemented a **RAG-based model monitoring framework** for Gen-AI solutions, defining custom health metrics*

education

2018

MASTER OF SCIENCE (M.S.) IN STATISTICS

University of Calcutta,
Kolkata

Relevant Coursework

Regression, Optimization, Bayesian Statistics, Biostatistics

and thresholds, and collaborating cross-functionality for successful deployment.

- **Collaborated** with Stakeholders, IT, IMR, Model governance teams to embed **end-to-end** production ready solution.
- **Mentored** junior team-members in regulatory model development and stakeholder reporting.

Feb 2022 - Nov 2023

SENIOR ANALYST

HSBC, Kolkata

- Created **predictive models for financial crime detection** and risk profiling using Random Forest, GBM, and NLP approaches.
- Delivered **Time Series based analytics** solutions to predict Financial Crime Alerts.

Jul 2021 - Jan 2022

ANALYST

CRISIL Ltd., Mumbai

- Worked on **Financial Crime and Threat Mitigation** designing holistic review mechanism to identify evaluate major risk components to cover off gaps in existing framework of Financial Crime transactions

Jul 2019 - Jun 2021

STATISTICIAN

Radix Analytics Pvt Ltd., Ahmedabad

- Developed **Credit Risk Modelling & Scorecard Building** for Clients to build Predictive models, KPIs & streamlined customer behavior cycle based on historical credit Bureau and utility data.

2016

BACHELOR OF SCIENCE (B.S.) IN STATISTICS

Maulana Azad College ,
Kolkata

Relevant Coursework

Statistics(Major), Mathematics(minor),
Physics(minor)

certifications

- NPTEL Advanced Machine Learning
